EDUCATION

The Ohio State University

B.S. Computer Science & Engineering, Cybersecurity Specialization, Mathematics Minor
Honors, STEM Emerging Leaders Fellow

August 2024 – May 2028

GPA: 3.58

Berea-Midpark High School

Honors High School Diploma

August 2020 – May 2024

GPA: 4.44

EXPERIENCE

Software Engineering Fellow

JP Morgan Chase

June 2026 – July 2026

Columbus, OH

- Built a full-stack internal web application over a selective five-week program, working with server-side rendering, streaming data, database design, and accessibility standards with an emphasis on writing maintainable, scalable code within a large organization.
- Shadowed teams across multiple lines of business and connected with engineers and leaders at every level.

Persistent Cybersecurity Clinic Internship Program

Strategic Ohio Council for Higher Education

April 2026 – Present

Columbus, OH

- Completed a 20-hour government cybersecurity training and lead outreach to local government entities for the Ohio Persistent Cybersecurity Initiative (OPCI), onboarding 4 LGEs into the program to date.

Undergraduate Research Assistant

The Ohio State University College of Engineering

May 2025 – May 2026

Columbus, OH

- Joined the Wearable and Implantable Technologies division of the ElectroScience Lab through the SEED program, gaining research and entrepreneurial skills before continuing on as a URA.
- Developed AI and machine learning applications, including synthetic data and model generation, to improve prediction accuracy for the kinematics sensors project.

PROJECTS

Stop to Think: How Does Your Phone Affect You? | BDAA Project Series

December 2025

- Won 1st Place and Student Choice for our research on a Kaggle dataset to analyze the relationship between phone habits, mental health, and social categories.
- Created a web app modeled off the data that introduces a user-friendly way of tracking phone habits in correlation with mental health to improve both phone usage amounts and mental health.

O'ahu Power Grid Risk Map | HackOHI/O 2025

October 2025

- Created a tool for AEP's challenge track that calculates and visualizes risk ratings for power lines in O'ahu.
- Created a web app that integrates live weather data into a heatmap, displays power line stress from machine learning predictions, and a simulated weather page for experimentation.

INVOLVEMENT

Vice President | Engineering Ambassadors

March 2025 – Present

- Onboarding and training each incoming cohort of ambassadors while facilitating tours, panels, and recruitment events for prospective freshman and transfer students.

MakeOHI/O Co-Lead | OHI/O

October 2025 – Present

- Co-leading MakeOHI/O, a hardware-based hackathon and one of OHI/O's cornerstone events, drawing 500+ student participants.

Peer Academic Leader | LLC for Engineers, Architects, and Planners (LEAP)

March 2025 – Present

- Helping first-year students in the College of Engineering transition to college through mentorship and programs.

QUALIFICATIONS

Programming Languages: Java, Python, C/C++, JavaScript, HTML/CSS, MATLAB

Relevant Coursework: Fundamentals of Engineering Honors I & II: MATLAB/C/C++, Software I & II: Java, Foundations I & II: Discrete Structures & Data Structures, Systems I: Computer Architecture
